Mission

Alliance Culturelle s.r.l. is a Company founded not simply to provide services or to produce goods but to make unique and authentic experiences. Inspired by the mosaic alliance, Alliance Culturelle is an alliance with the Culture and for the Culture. Our customers are not simply buying a service but experiencing a deep and full cultural journey which is built together with them and for them, helped by professionals who have chosen cultural tourism not only as a business but as a lifestyle.. Our Philosophy

"Making art Speak" is what we do establishing a living dialogue with the artworks, often only celebrated for their beauty but rarely deeply and fully understood or lived. When Michelangelo, according to a false anecdote, violently hit the statue of Moises with an hammer, shouting, "Why don't you speak?" perhaps he was afraid to let his masterpiece being admired and celebrated, but silent in its own perfection.
